[redacted] ODCI/Historical Staff

**Alleged Discrepancies**

In acknowledging receipt of job number 53-29, you suggest that there are discrepancies between my shelf list and the original submitted by OHR. Obviously, I failed to make it clear in the prefatory sentence to my shelf list that this was supplemental to the list submitted by OHR.

The material returned included all folders of background material, often including copies of the SR's themselves, listed by OHR on its original shelf list (which ODCI/ES received about 12 February 1953) plus the listed copies of SR's which were "incorporated in" the original folders of the OHR material. These copies of SR's were listed separately because they were not received with the folders, but were transmitted to ES "within a few weeks of the original deposit of records, up to 23 March 1953."

An additional discrepancy between the original shelf list and the material sent you is mentioned at the foot of my shelf list supplement as concerns container number 2.
